

Sweeper Attachment

Sweeper Attachment - Forklifts manufactured by AUSA, provide absolute functionality and are very popular for their compact, highly modular and ergonomic design. They offer stability and versatility when handling difficult or heavy loads on the jobsite, while being really safe to control. With respect to various lift trucks, AUSA models have a large diameter of their wheels that helps to ensure favorable load suspension in the cabin and in the forks. This allows the lift truck to generate an optimal working productivity over variable and uneven surfaces.

The company head office for AUSA are located in Manresa, Spain which is in the region of Barcelona's interior. The chief production facility is also at this location and holds a total surface area of around sixty four thousand square meters. AUSA has subsidiaries located in the Germany, Madrid, France, Florida, China and the UK. The company exports over sixty percent of the machines they producer and advertises its products through two hundred twenty five distributors all around 70 nations.

Each of the AUSA forklifts is offered outfitted along with an automatic hydrostatic transmission. This provides accuracy of movement and automatic braking in deceleration of the forklift which gives this particular machine an extra level of productivity and safety. The hydrostatic transmission enables the person operating it to quickly adapt to the forklift which is vital when the load is not easy to handle and if terrain conditions are complicated.

AUSA lift trucks offer a special cabin design not like obtainable. It is frontal folded in order to make it much easier to access for periodical maintenance. These highly modular cabins also come in semi-closed, open or soundproof closed. For northern weather conditions heated cabins are an alternative, plus, air conditioning is integrated in a rear post of the cabin. A wide range of attachments, tire widths and grips are likewise obtainable in order to suit whichever of the forklift models.

AUSA is amongst the world leaders in compact equipment, specializing not only in rough-terrain forklifts but likewise urban sweepers, tool carrier vehicles and site dumpers. With sales and service all around 70 countries within 5 continents and over two hundred sales depots all around the world, AUSA is an industry leader.
