

## Meritor Parts

Meritor Parts - Meritor is a premier international supplier which is proudly built on a 100 year tradition of quality and service. They focus on various modules, integrated systems and components to original machine makers and the aftermarket for the industrial and transportation sectors.

Meritor values the needs of all their clients to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their global operations. Meritor starts with a tradition that values diversity of people and their broad thought processes. Operating in 19 countries and hiring more than 11,200 people, Meritor promotes innovation and collaboration among a team of experienced experts.

Meritor strongly believes in just employing future focused people. These top-caliber people could quickly adapt to changing surroundings and freely demonstrate the level of performance and commitment necessary to get results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the company. In return, Meritor provides all of their staff various opportunities for personal and professional growth.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises axles, drivelines, braking and suspension systems utilized for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is also responsible for supporting the needs of their international engineering personnel.

The Quality team at Meritor is a customer-focused and dynamic group who is dedicated to ensuring optimum progress at their aftermarket distribution facilities and production plant that are located on 5 continents and in 19 countries.

They have their supplier network which is specifically situated to be able to support the development of the business. Every regional team has globally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making within each aspect of the business. The DFSS or also known as Design for Six Sigma ensures product reliability within every region. The team is also included transactional Green Belts who utilize Six Sigma tools to business techniques and apply lean techniques.
