

Rockwell Parts

Rockwell Parts - The business of AxleTech International is a large supplier of specialty vehicle drive-train systems and components along with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to exceed and meet their clients' expectations for technology, delivery, quality and service. They believe in working within an environment which supports the highest integrity with empowered collaboration, together with a persistent pursuit of results.

AxleTech International is a General Dynamics business. They believe strongly in actively applying principals of ecological safety and stewardship in how they do business. The business has put various programs in place in order to articulate these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to offer them with any comments or questions, because they are happy to promote and share this policy with a greater knowledge of their efforts. They are very committed to improving and preserving the natural environment. AxleTech has an EHS program which not only protects the environment but which also actively protects their workers and neighbors too.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in designing and manufacturing planetary axles for both commercial and military applications. These applications range from construction equipment to airport ground support. AxleTech specifically designs axles to be able to meet specific application demands. They have over 1000 various axle specs within their present offering. With more than 100+ years of history and knowledge, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The company is well known in many commercial and military applications. They provide complete axle assemblies used for aftermarket replacement needs, along with servicing axle needs for OE production. Their high mobility ISAS have added details that could be found in the "ISAS" product collection.
