Advance-Nilfisk Part - Think about how long and tiresome it would actually be to clean-up after a party, with no assistance from machines. Not too long ago, the dust from carpets and upholstery had to be beat out of them by hand; brooms, brushes and cleaning cloths were the top cleaning products back then.

P.A. Fisker, the founder of Nilfisk-Advance, was actually an electrical engineer who loved working with electrical motors. Starting the business in the year 1906, he started to make motors to be able to drive fans, machine tools, coffee grinders and drills. Mr. Fisker's dream from the beginning was to own an international company selling products worldwide.

The Nilfisk C1 was a tremendous breakthrough for the cleaning industry. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed only 17.5 kilos and could be operated by one individual.
